Augustum Corporate Bond - "D"

A Sub-Fund of New Millennium
"Distribution" shares (ISIN LU0777018002)

This SICAV is managed by **NATAM Management Company S.A**

Objective and Investment Policy

- **AZ Swiss & Partners S.A.** is the Investment Manager of this Sub-fund
- The objective of the Sub-Fund is to achieve an exposure to corporate bonds in order to take advantage from a conscious assumption of credit risk;
- Through discretionary choices, the Sub-Fund invests in fixed income transferable securities, at fixed and floating rate, issued mainly by European issuers;
- It is permitted to invest in transferable securities issued by *not rated* issuers; under exceptional circumstances the Sub-Fund can be invested up to 5% in bonds with a minimum rating between C and CCC+ and maintain up to 3% of the net assets in securities subject to downgrade with a minimum rating "D";
- The Sub-Fund may invest in credit derivative instruments, (i.e. Credit Default Swaps, Credit Spread Derivatives that allow two parties to exchange the credit risks specific to some issuers) which will be mainly used for hedging purposes but, up to 15% of the net assets value of the Sub-Fund, can also be used for investment purposes;
- Exchange rate risk is limited to 30% thanks to the hedging activity of the main currency positions against the Euro;
- A wide degree of discretion is allowed with respect to the **benchmark** which is made of:
 - 80% Bloomberg Barclays EuroAgg Corporate Total Return Index Value Unhedged EUR (LECP TREU)
 - 20% Bloomberg Barclays 1 month Euribor Swap Index Total Return (LZ73 TREU)
- Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can also be used for investment purposes provided that the total commitment does not exceed, at any moment, 50% of net asset value of the Sub-Fund;
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money in a time horizon shorter than medium term (3-5 years)
- Investors may redeem their shares on any business day for Luxembourg banks;
- A dividend equal to 3,5% of the net assets is distributed on a yearly basis regardless of the performance of the Sub-Fund

Risk and Reward Profile

- The risk category is based on a synthetic indicator linked to historical data over a 5-year period and is not a reliable indication about the future risk profile of this class of shares; it is not guaranteed and it may change over time;
- The risk indicator for this class of shares is set at 4 because the volatility of its past returns has been moderate mainly because of the significant fluctuations of the returns of bonds in which the Sub-fund invests;
- The lowest rating does not mean a risk-free investment;
- This Sub-Fund is not a guaranteed capital fund and the following **risks**, though not detected by the synthetic indicator, can be relevant for the Sub-Fund:
 - Significant changes in interest rates may cause large fluctuations in bonds;
 - The overall performance of a portfolio could be affected by the insolvency of one or more issuers;
 - The use of derivatives, especially OTC (meaning that they are not traded in regulated markets but directly with the counterparties) may imply significant losses if a counterparty defaults and cannot honor its liabilities;
 - Fluctuations in currency exchange rates can negatively affect the return of the investment. The currency hedging may not totally reduce this risk;
 - Under certain market conditions, especially when the market is characterized by very low trading volumes, the sale of some financial securities could be particularly penalizing because of the lack of an adequate number of counterparties
