Augustum Italian Diversified Bond - “Y”

A Sub-Fund of New Millennium

“Distribution” shares (ISIN LU1362559087)

This SICAV is managed by **NATAM Management Company S.A.**

Objective and Investment Policy

- **AZ Swiss & Partners S.A.** is the Investment manager of this Sub-fund
- The Sub-Fund seeks to achieve a moderate growth in the value of capital invested in a medium-term time horizon, through a highly concentrated exposure to bond instruments of Italian issuers, without taking any currency risk;
- The sub-fund's units are included among eligible investments that shall be held in a “*Piano Individuale di Risparmio a lungo termine*” (“PIR”) under the Italian 2017 Budget Law (Law No 232 of 11 December 2016-“PIR Law”)
- Through discretionary choices, the Sub-Fund invests at least 70% (“qualified investments” as per the PIR Law) of the portfolio in financial instruments issued by companies resident in Italy, or in an EU or EEA Member State and have a permanent establishment in Italy. At least 30% of these financial instruments, which corresponds to 21% of the fund's total net assets, shall be issued by companies which are not listed in the FTSE MIB index or in any other equivalent indices
- Up to 30% (“free investments as per the PIR Law) of the total net assets may be invested in:
 - Italian Government Bond
 - Bond issued by non-Italian issuers, both Government and corporate
 - Derivatives for hedging purposes
- *Non-investment grade* and *not rated investments* are allowed up to 49% of the net asset value;
- The Sub-Fund cannot assume currency risk: where the securities are denominated in other currencies, the currency risk will be hedged;
- A wide degree of discretion is allowed with respect to the **benchmark** which is made of:
 - 70% Bloomberg Barclays Bond Italian Aggregate Issuers TR (LEI2TREU Index)
 - 20% Bloomberg Barclays Euro-Aggregate Corporate TR Index Value Unhedged EUR (LECP TREU)
 - 10% Bloomberg Barclays Italy Govt 1 to 3 Year TR (BCEI6T)
- Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can only be used for hedging purposes;
- The Sub-Fund may invest in credit derivative instruments, (i.e. Credit Default Swaps, Credit Spread Derivatives that allow two parties to exchange the credit risks specific to some issuers) which will be used for hedging purposes only;
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years;
- Investors may redeem their shares on any business day for Luxembourg banks;
- A dividend equal to 3% of the net assets is distributed on a yearly basis regardless of the performance of the Sub-Fund

Risk and Reward Profile

- The risk category is based on a synthetic indicator linked to historical data over a 5-year period and is not a reliable indication about the future risk profile of this class of shares; it is not guaranteed and it may change over time;
- The risk indicator for the Sub-Fund is set at 3 because the volatility of its past returns has been medium-low. This is mainly because of the fluctuations of the bonds in which the Sub-Fund invests;
- The lowest rating does not mean a risk-free investment;
- This Sub-Fund is not a guaranteed capital fund and the following **risks**, though not detected by the synthetic indicator, can be relevant for the Sub-Fund:
 - Significant changes in interest rates may cause large fluctuations in bonds;
 - The overall performance of a portfolio could be affected by the insolvency of one or more issuers;
 - The use of derivatives, especially OTC (meaning that they are not traded in regulated markets but directly with the counterparties) may imply significant losses if a counterparty defaults and cannot honor its liabilities;
 - Under certain market conditions, especially when the market is characterized by very low trading volumes, the sale of some financial securities could be particularly penalizing because of the lack of an adequate number of counterparties
