## Evergreen Global High Yield Bond - “A”

A Sub-Fund of New Millennium

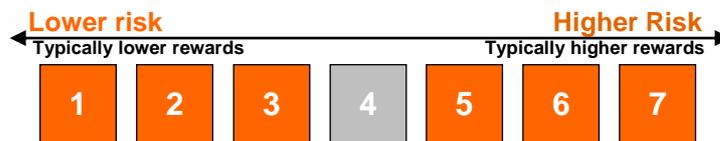

“Capitalization” shares (ISIN LU1363165835)

This SICAV is managed by NATAM Management Company S.A.

### Objective and Investment Policy

- **AZ Swiss & Partners S.A.** is the Investment manager of this Sub-fund
- The objective of the Sub-Fund is to achieve a return in excess of global bond markets by investing primarily in global *not investment grade* debt securities, both corporate and Government, without geographical limits, and with an active management of the exchange rates and derivatives;
- Through discretionary choices, the Sub-Fund invests at least 70% of the net assets in not investment grade and not rated debt securities although the exposure to not rated bonds will not exceed 30% of the net assets;
- Investment in Asset Backed Securities e Mortgage Backed Securities is allowed up to 20%;
- The Sub-Fund may invest in credit derivative instruments, (i.e. Credit Default Swaps, Credit Spread Derivatives that allow two parties to exchange the credit risks specific to some issuers) which will be used for both hedging and investment purposes, although in case of investment purposes they cannot exceed 15% of the Sub-Fund’s net assets;
- Securities can be denominated in any currency with adequate diversification;
- A wide degree of discretion is allowed with respect to the **benchmark** which is made of:
  - 40% Bloomberg Barclays Global High Yield TR Index Value Hedged EUR (LG30TREH)
  - 30% Bloomberg Barclays Pan-European High Yield (Euro) TR Index Value Unhedged EUR (LP01TREU)
  - 20% Bloomberg Barclays Euro-Agg Corp TR Index Value Unhedged EUR (LECP TREU)
  - 10% Bloomberg Barclays 3 months Euribor Swap Index TR Eur (LS01TREU);
- Derivative instruments, which are financial contracts whose value depends on the market price of a reference asset, can also be used for investment purposes provided that the total commitment does not exceed, at any moment, 50% of net asset value of the Sub-Fund;
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money in a time horizon shorter than medium term (3-5 years)
- Investors may redeem their shares on any business day for Luxembourg banks;
- All income is, normally, reinvested.

### Risk and Reward Profile

- The risk category is based on a synthetic indicator linked to historical data over a 5-year period and is not a reliable indication about the future risk profile of this class of shares; it is not guaranteed and it may change over time;
- The Sub-Fund was launched in March 2016 so, without historical performance, the risk category was set at 4 on the basis of the moderate volatility of the benchmark;
- The lowest rating does not mean a risk-free investment;
- This Sub-Fund is not a guaranteed capital fund and the following **risks**, though not detected by the synthetic indicator, can be relevant for the Sub-Fund:
  - The overall performance of a portfolio could be affected by the insolvency of one or more issuers selected among those with lowest rating;
  - The value of the investment may rise as well as fall significantly and it is possible to receive less than originally invested;
  - Significant changes in interest rates may cause large fluctuations in bonds;
  - Derivative instruments can be used to increase, limit or keep the risk level of the Sub-Fund. The strategy implemented by the Manager may not always be successful and the Sub-Fund could therefore incur in significant losses;
  - The use of derivatives, especially OTC (meaning that they are not traded in regulated markets but directly with the counterparties) may imply significant losses if a counterparty defaults and cannot honor its liabilities;
  - Emerging markets are characterized by custodian services and settlement of transactions that may be less evolved and less liquid than developed markets. Any investment in these markets is typically more volatile;
  - Fluctuations in currency exchange rates can negatively affect the return of the investment. The currency hedging may not totally reduce this risk;
  - Under certain market conditions, especially when the market is characterized by very low trading volumes, the sale of some financial securities could be particularly penalizing because of the lack of an adequate number of counterparties

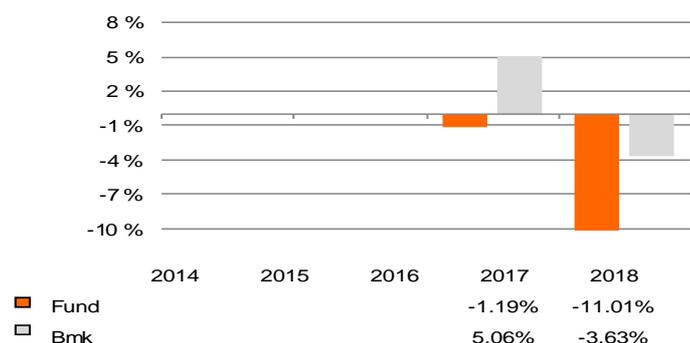

### Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One off charges taken before and after you invest		
Entry charges	3,00%	The entry charges and the exit charges are the maximum figures that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you might pay less. You can obtain the actual charges from your financial adviser or distributor
Exit charges	none	
Charges taken from the Sub-Fund over a year		
Ongoing charges	2,18%	The ongoing charges figure is based on last year's expenses, for the year ending 31 December 2018 and may vary from year to year. It does not include performance fees and transaction costs (except in the case of an entry/exit charge paid by the UCITS when buying or selling shares in another collective investment undertaking)
Charges taken from the Sub-Fund under certain specific conditions		
Performance fees	20%	of the positive returns the Sub-Fund achieves above the benchmark made of: 40% Bloomberg Barclays Global High Yield TR Index Value Hedged EUR (LG30TREH) + 30% Bloomberg Barclays Pan-European High Yield (Euro) TR Index Value Unhedged EUR (LP01TREU) + 20% Bloomberg Barclays EuroAgg Corp TR Index Value Unhedged EUR (LECP TREU) + 10% Bloomberg Barclays 3 months Euribor Swap Index TR Eur (LS01TREU). Performance fees taken in year 2018: 0,00%

Further information about charges can be found in the full Prospectus of the SICAV, in Chapter 11 "Investment Advice and management Delegation and respective fees" and in Chapter 21 "Fees and Expenses".
