What is this product?

Type

The SICAV is a Luxembourg Investment company subject to the provisions of Part I of the Law of 17 December 2010, relating to undertakings for collective investment in transferable securities (UCITS).

Term

There is no maturity date. The SICAV has been established for an unlimited period of time. Natam may terminate the SICAV and the Sub-Funds early, following the procedures described in §23 and §24 of the Prospectus.

Objectives

Investment objective The objective of the Sub-Fund is to achieve long-term capital growth through a diversified portfolio of equities and debt securities.

Investment policies Through discretionary choices and active management, the Sub Fund invests in equities and other equity-related securities, as well as debt securities, both directly and indirectly through UCITS and/or other UCIs.

The exposure to equity and equity related securities issued by companies worldwide is maintained between 50% and 85% of the net assets. The Sub-Fund may invest up to 50% of its net assets in debt securities and money market instruments issued by governments, supranational institutions and/or government agencies and corporate issuers. These may include non-investment grade and unrated securities, up to 35% of the net assets, as well as hybrid, subordinated and convertible bonds — including contingent convertible bonds (CoCo bonds) — the latter of which may represent up to 20% of the Sub-Fund's net assets. No more than 5% in bonds have a minimum rating between C and CCC+ and under exceptional circumstances a maximum of 3% in D rated securities. Exposure to emerging markets is limited to 30% of the net assets.

Up to 30% may be invested in UCITS and UCIs including ETFs classified as transferable securities.

Derivative instruments are allowed for both hedging and investment purposes with an expected leverage, calculated as the sum of notionals, not exceeding 300%.

Exchange rate risk is limited to 25% through the hedging activity of the main currency positions against the Euro.

The Sub-fund has been categorized as a financial product falling under the scope of Article 6 of the SFDR.

Benchmark 65% Bbg World Large & Mid Cap NR EUR Hedged Index (WORLDNHE index) + 30% BBG Global-Aggregate TR Index Value Hedged EUR (LEGATREH index) + 5% BCE Euro Short-Term rate index (ESTCINDX)

Benchmark uses The Sub-Fund is not intended to track the benchmark. The above indices are not used to define the asset allocation but only for the purpose of monitoring the return of the Sub-Fund and calculating the performance fees.

Redemption and Dealing Investors may redeem their shares on any business day for Luxembourg banks. They can also switch some or all their shares in those of another Sub-Fund and/or Class (with the exception of Class "L") within the SICAV without paying any extra fee.

Distribution Policy All income is, normally, reinvested.

Intended retail investor

This share class is suitable for Institutional investors only, having a long term investment horizon and with no preference for products complying with the ESG factors.

Practical information

Depository The SICAV depository is State Street Bank International GmbH, Luxembourg branch.

Further information A copy of the Prospectus, the latest annual and semiannual financial report of New Millennium are available free of charge in English and Italian on the websites www.natam.lu, www.newmillenniumsicav.com and at the registered office of the Fund (49, avenue J.F.Kennedy, L-1855 Luxembourg). Also the latest Net Asset Value per share are published on www.natam.lu and www.newmillenniumsicav.com

The information contained in this document is specific to Augustum Flexible Equity. However, the Prospectus, annual and half-yearly reports are prepared for the SICAV as a whole.

The SICAV consists of separate Sub-Funds with segregated liabilities. This means that the assets of a Sub-Fund will not be available to meet the claims of a creditor made against another Sub-Fund.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between November 2024 and November 2025.

Moderate: this type of scenario occurred for an investment between May 2019 and May 2024.

Favourable: this type of scenario occurred for an investment between March 2020 and March 2025.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This means that potential losses due to the future performance of the product are rated a medium-low level and that adverse market conditions are unlikely to affect the sub-fund's ability to return the initial capital.

This product does not include any protection from future market performance so you could lose part or all your investment. The significant risks not detected by the synthetic indicator, are detailed in the "Main risk factors" section of the relevant Sub-Fund Appendix of the Prospectus.

What happens if NATAM Management Company S.A. is unable to pay out?

In the event of Natam's insolvency, the assets of the SICAV will not be affected. The assets of the SICAV are held in safekeeping by the Depositary, that is required by law to segregate its own assets from the assets of the Sicav.

If the fund is not able to pay you out what is due, you may lose your entire investment. Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	172 EUR	860 EUR
Annual cost impact*	1.8%	1.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.3% before costs and 6.4% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Recommended holding period (RHP) is 5 years but investors can request the redemption of their shares on any business day for Luxembourg banks without paying any redemption fee. The RHP has been selected on the basis of a quantitative and qualitative analysis considering the strategy, fees and the risk profile of the product.

Please note that the expected return is, anyway, not guaranteed.
